

KALYOS

Building on the runaway success of the rimless Kerosene™ and Rydon™ designs, the KALYOS™ brings a strong value proposition to athletes without compromising function or style. Using Quick Change technology the Kalyos™ lenses can be easily changed to manage any light condition. The 8 base wrap architecture insures maximum protection from the elements. Adjustable nose pads using Ergonose™ II allows wearers to prevent fogging and eyelashes from touching – common problems with competitors. The stylish temples side metal emblems and Safety Project hinges give the Kalyos™ its unique technically cool look and allow an elastic strap to be added for endurance sports. Need Prescription? No worries. The Kalyos™ uses the ingenious optical clip found in Rudy's best-seller Ekynox SX™.

Weight Ounces: 0,80 Grams: 21
Eye Size DBL Temple 69 / 19 / 127

Ergonomic style

Techno geometric sweep styling for unsurpassed peripheral vision.

Unique Grilamid™ TR 55 LX frame construction provides structural integrity and stability

RP-D-CENTERED™ - RP Optics™ lenses provides maximum UV protection and optical clarity.
