

# KLONYX

Unifying seamlessly advanced design technology and materials science, the KLONYX™ blends cutting-edge ergonomic features with maximum peripheral vision. The unique, removable Nose-Protector™ ensures additional protection for snow freaks while ensuring total breathability. The removable optical insert can handle a wide range of prescription correction factors to ensure optimal vision at any altitude.

KLONYX™ e' l'espressione intelligente di un prodotto tecnico innovativo: doppia lente intercambiabile antigraffio e antifog per una perfetta visione della pista, esclusivo Nose Protector™ removibile per garantire una protezione assoluta anche in condizioni di gara impegnative, Clip-on opzionale per lenti correttive. Una maschera superiore ad ogni aspettativa, in risposta a qualsiasi esigenza.
